

TOOLS NEEDED TO BE SUCCESSFUL

Before registering for an online class, you will need:

- ◆ A computer. Smart phones are not yet a reliable tool for online courses.
- ◆ Internet access.
- ◆ An email account that you check every day. Do not allow your email box to become full, as this can interfere with you receiving important messages about your class.
- ◆ Supported operating systems (Windows or Mac) and web browsers (Internet Explorer, Mozilla Firefox or Google Chrome).
- ◆ Java. This is downloadable for free on the Internet.
- ◆ Microsoft Office 2007 or 2010.
- ◆ Adobe Reader. This, too, is downloadable for free on the Internet.
- ◆ RealPlayer, VLC Player or another media player for audio and video files (version 10 or higher is recommended).
- ◆ Adobe Flash Player (version 8 or higher is recommended).
